Welcome!

The UHN [Office of Research Trainees](#) (ORT) is a centralized hub that supports all trainees and postdoctoral researchers (PDRs) at the University Health Network (UHN). The ORT provides a **safe space** for questions and concerns, and connects students and PDRs to **valuable resources**, including career exploration and skill development workshops, funding opportunities, wellness supports, and more!

Welcome to Research at UHN!

To help you get started on your research and ensure you have all the tools and information you need to succeed and make the most of your time at UHN, the ORT has created this ***UHN Student and Postdoctoral Researcher Handbook***.

Disclaimer: The UHN Student and Postdoctoral Research Handbook is intended to provide general information and guidance to its readers. While every effort has been made to ensure the accuracy of the contents, readers are responsible for verifying information and making informed decisions based on their specific situation. Please be sure to seek expert advice when needed, especially for your immigration and health needs. The Office of Research Trainees and the University Health Network are not liable for any actions taken or decisions based on the information presented herein.

We are here to support you. If you have any questions or require information, please connect with us anytime! We can be reached by email at ortadmin@uhn.ca or by phone at (416) 634-8775. Members of TeamUHN can also book a virtual appointment with a member of the ORT Team [here](#).

Enjoy your research experience here at UHN, and again, welcome!

The Office of Research Trainees (ORT) Team!

Part 1. Introduction

About University Health Network (UHN)

Welcome to UHN! UHN is a large network of hospitals, and there is a lot to navigate. We have put together some key resources that we hope will get you settled and find what you need.

UHN's purpose is to transform lives and communities through excellence in care, discovery, and learning to achieve a healthier world. Learn more about our vision, values, organizational structure, and strategic plan at [About the University Health Network](#).

UHN includes twelve hospital sites, as well as education programs through the Michener Institute of Education at UHN. Learn more about the [services, programs, and amenities offered at each location](#).

[Research at UHN](#) is divided into six* research institutes: [KITE Research Institute](#) (affiliated with Toronto Rehabilitation Institute), [Krembil Research Institute](#) (affiliated with Toronto Western Hospital), [McEwen Stem Cell Institute](#), [Princess Margaret Cancer Centre](#) (affiliated with Princess Margaret Hospital), [The Institute for Education Research \(TIER\)](#), and [Toronto General Hospital Research Institute](#) (affiliated with Toronto General Hospital). Learn more about UHN Research by reading the latest annual reports [here](#).

*UHN is currently undergoing a restructuring of their research institutes, from six research institutes to two, which include the Princess Margaret Cancer Centre and the University Health Network Research Institutes (UHNRI). UHNRI will be comprised of the Krembil Brain Institute, Schroeder Arthritis Institute, Donald K. Johnson Eye Institute, Peter Munk Cardiac Centre, KITE Research Institute, McEwen Stem Cell Institute, Ajmera Transplant Centre, and TIER.

About the UHN Corporate Intranet

Many useful resources can be found on the [UHN internet site](#); however, some information can only be accessed through the [corporate intranet](#).

The **UHN corporate intranet** is where you will find policies and procedures, research tools, and important employee resources (i.e., pay stubs and T4s, benefits information, wellness supports, etc.).

You can access the UHN corporate intranet easily via on-site computers. If you are not on-site, then you can access the intranet remotely. There are two ways to do this:

1. Access remotely through a VPN (virtual private network). To do this, please follow [these instructions](#).
2. Alternatively, you can simply go to https://www.uhn.ca/corporate/For_Staff and click on **Corporate Intranet** to sign-in using your UHN username and password. *This method will allow you to access and browse TeamUHN tools and resources on the corporate intranet; however, connecting this way will not allow you to access all the linked resources in this document.

If you have questions or any difficulties with access, please email the ORT at ortadmin@uhn.ca.

UHN Acronyms and Terminology

2SLGBTQIA+ – An acronym that stands for Two-Spirit, Lesbian, Gay, Bisexual, Transgender, Queer or Questioning, Intersex, Asexual, and additional sexual orientations and gender identities.

ACR – Annual Compensation Review (formerly Total Compensation Program (TCP))

ARC – Animal Resources Centre

Clinical Learner – Healthcare and medical professionals engaging in research or educational training, including clinical students, residents, interns, and fellows.

Corporate Intranet – UHN’s internal website; accessible on-site. Accessible off-site using a VPN or by signing in with your UHN account and password

CPP – Canadian Pension Plan

CRA – Canada Revenue Agency

EFAP – Employee Family Assistance Program

Employee ID – A 6-digit identification number that is unique to you and provided by People & Culture in your offer letter.

EI – Employment Insurance

Epic – UHN’s new health information system

EPR – Electronic Patient Record

Graduate student – A Master’s or PhD student affiliated with a university, working at a UHN research institute

Health Services – UHN department responsible for health clinical services, including COVID-19 exposure management, immunization records, disability management, wellness, and more.

IDEA – Inclusion, Diversity, Equity, and Accessibility

IDEAA – Inclusion, Diversity, Equity, Accessibility, and Antiracism

KDT – Krembil Discovery Tower located at 60 Leonard Ave.

KITE/TRI – Knowledge Innovation Talent Everywhere/Toronto Rehabilitation Institute

Krembil – Krembil Research Institute

McEwen – McEwen Stem Cell Institute

MyLearning – Online eLearning platform used for mandatory training during onboarding, as well as ongoing professional development and training of UHN employees.

ORT – UHN Office of Research Trainees

OHIP – Ontario Health Insurance Plan

P&C – People and Culture (formerly Human Resources)

PDRs – Postdoctoral researchers

PM – Princess Margaret Cancer Centre

PMCRT – Princess Margaret Cancer Research Tower, located at 101 College St in the MaRS Discovery District

REB – Research Ethics Board

RIS – Research Information Services

RSS – Research Solutions & Services

RQI – Research Quality Integration

SIN – Social Insurance Number

Summer Student – Any student conducting research during the summer months (typically May-August), including high school students, undergraduate students, medical students, graduate students, etc.

TeamUHN – Any and all individuals working at one of the UHN hospitals or research institutes

TGH – Toronto General Hospital

TGHRI – Toronto General Hospital Research Institute

T-ID – A unique identifier provided to each member of TeamUHN, which is required for network access, access to the employee self-service portal, MyLearning, and more.

TIER – The Institute for Education Research

TWH – Toronto Western Hospital

U of T – University of Toronto

Undergraduate student – A student performing research at UHN while undergoing their undergraduate degree.

UHN – University Health Network

UHNPA – UHN Postdoc Association

VPN – Virtual Private Network

Help?! Who to Contact

Have a difficult question? Not sure where to start or where to go for help? Start by navigating this list of common questions and UHN contacts that can help!

Questions About...	Contact
Your specific research institutes' programming and operations or administrative support (e.g. award application signatures, ...)?	<p>Business Officers/Managers/Admin Contacts:</p> <ul style="list-style-type: none"> • Susannah Moore (Susannah.Moore@uhn.ca) and Patrick Yau (Patrick.Yau@uhn.ca) • KITE/TRI – Mary Lam (Mary.Lam@uhn.ca) • Krembil – Amy Ma (Amy.Ma@uhn.ca) and Kim Perry (Kim.Perry@uhn.ca). • McEwen – Admin contact: Jonelle Martineau (Jonelle.Martineau@uhn.ca) • TIER – Ashita Mohapatra (Ashita.Mohapatra@uhn.ca) • TGHRI (including Peter Munk Cardiac Centre and Ajmera Transplant Centre) – Tuula Kalliomaki (Tuula.Kalliomaki@uhn.ca) and Jude Villareal (Jude.Villareal@uhn.ca)

Your contract? Policies relating to your employment (parental leave, vacation, etc.)? Help with immigration? How to report or resolve conflicts?	Visit the “ Work with People & Culture ” page (UHN connection required) to determine the appropriate contact.
Onboarding?	Visit the “ Work with People & Culture ” page (UHN connection required) to determine the appropriate contact. Contact the Employee Helpline at 416-340-4800 ext. 5995.

Inclusivity in the workplace? Resolution of diversity-related conflicts? Accessibility at UHN? Training, coaching and advice related to Inclusion, Diversity, Equity, Accessibility, and Antiracism (IDEAA)?	Jacqueline Silvera, IDEAA Director: Jacqueline.Silvera@uhn.ca Or email diversity@uhn.ca
2SLGBTQIA+ resources, initiatives, and support?	2SLGBTQIA+ Committee Chairs: pride@uhn.ca SharePoint here (UHN connection required)
Indigenous health information?	Indigenous Health Program: Indigenoushealth@uhn.ca
Equity issues related to black and racialized communities at UHN? Black Legacy Committee events and ways to get involved?	UHN Black Legacy Committee (BLC) chairs: Sylvia.welsh@uhn.ca Or email diversity@uhn.ca

Still need help and don't know who to go to? Submit your question to the [UHN Research Help Center](#) (UHN connection required) or email the ORT at ortadmin@uhn.ca.

Part 2. Connect with the ORT

Register with the ORT

Every student and postdoctoral researcher (PDR) at UHN are required to complete the [ORT Registration Form](#).

Registering will add you to the ORT mailing list and give you access to all ORT's programming, including conference awards, workshops, and more. You will also receive a weekly email highlighting upcoming workshops, funding opportunities, and social events. It is a great way to get connected and keep up with current events in the UHN research community.

Join the ORT Slack Community

The ORT has established a Slack community space for UHN students and postdoctoral researchers to connect, share resources, make plans, and ask questions.

Join with your UHN email address [here](#)! You will automatically be added to channels dedicated to discussing events, grants and scholarships, health and wellness, professional development, research sharing and help, and social matters.

You are also invited to join other relevant channels, such as:

- For graduate students: #graduate-students
- For postdoctoral researchers: #postdocs

If you're having trouble connecting or want to connect using a personal email address, please email ortadmin@uhn.ca for support. You can learn about how to use Slack [here](#).

Connect

- Check out upcoming workshops, events, and opportunities on the [ORT website](#).
- Follow the ORT on [X \(formerly Twitter\)](#) and [LinkedIn](#).
- Check out our [YouTube](#) channel or [video library](#) for past workshop recordings.
- Email us anytime with questions at ortadmin@uhn.ca.
- If you have an event you'd like us to promote in our weekly newsletter, please complete [this form](#).
- If you've had a recent achievement or award, please let us know by filling out [this form](#). We love highlighting student and postdoc achievements in our newsletter and on ORT social media platforms.

ORT Code of Conduct & Inclusivity Commitment

The ORT is committed to ensuring a mutually respectful and welcoming learning environment in all ORT operations, events, and digital spaces (i.e. website, Slack, Twitter, LinkedIn).

The ORT prohibits all forms of harassment and discrimination, including offensive verbal or written comments, intimidation, sustained disruption of talks or other events, inappropriate physical contact, stalking or following, unauthorized photography or recording, and unwelcome sexual attention.

All speakers and participants must read and abide by the ORT's Code of Conduct & Inclusivity Commitment, which can be accessed [here](#).

Part 3. Before You Arrive at UHN

Before You Start at UHN

Before you start at UHN, you will have to complete a set of tasks. This includes reviewing UHN policies, mandatory online training and orientation, completing payroll documentation, and fulfilling the immunization and Health Services mandatory requirements. All the necessary information and instructions will be provided to you with your offer letter.

The [UHN New Employee Webpage](#) also outlines these steps and is a very helpful resource when preparing to start at UHN.

Resources for International Students and Postdoctoral Researchers

Ontario Health Insurance Plan (OHIP)

The Ontario Health Insurance Plan (OHIP) pays for many health services you may need, including appointments with family doctors, visits to walk-in clinics, visits to an emergency room, medical tests, and surgeries. All international students and PDRs must [apply for OHIP](#), which will provide healthcare coverage and an Ontario health card.

Note that there is no longer a waiting period for OHIP coverage; you can apply as soon as you arrive in Ontario and if you are eligible, you will have immediate health insurance coverage.

Social Insurance Number (SIN)

To work in Canada or access government programs and benefits you need a **Social Insurance Number (SIN)**. [Apply for a SIN](#) online or in person through Service Canada.

Your SIN is integral personal information that should be kept confidential. Learn about how to protect your SIN [here](#).

Driver's License

If you have a valid driver's license from another province or country, you can use it in Ontario for up to 60 days before needing to obtain an Ontario driver's license. The process for obtaining a full Ontario driver's license will be different depending on how long you have been driving and where you were licensed before. Visit the [Ontario government page](#) to learn about the rules and regulations and the process for obtaining an Ontario driver's license.

If you have brought a vehicle into Ontario, you must obtain automobile insurance. You must also register the vehicle with the Ministry of Transportation, which can only be done after you have proof of insurance. Information on vehicle insurance and registration can be found on the [Ministry of Transportation website](#).

International Student Support

Graduate students may have access to immigration services and supports through their degree-granting institution. University of Toronto (U of T) students receive international student services, resources, programs,

and events through the [Centre of International Experience](#). [Their immigration page](#) has resources on entering, studying in, and working in Canada, and more. U of T students also have access to a team of international student immigration advisors who can provide support, advice, and resources.

Work Permits

Immigration law is incredibly complex and specific to the individual. We highly recommend that international PDRs review the Work Permit information on the Government of Canada website [here](#) to learn more about the process.

International PDRs are required to have a work permit in Canada (open or closed work permit) or a work permit exemption.

An **open work permit** is not job or employer-specific and allows an individual to work for any employer in Canada, except for an employer who is listed as ineligible. Learn more about Open Work Permits [here](#).

- UHN is not involved in the Open Work Permit process. International postdoctoral researchers pursuing an open work permit will have to apply on their own, but they can ask their future supervisor to provide an offer letter to support the application.
- The two most common classes of open work permits are Post Graduate Work Permits, for new graduates from a full-time post-secondary program, and Spousal Work Permits, for individuals who have spouses with an offer of employment.

A **closed work permit** is tied to a specific employer, allowing the individual to only work with that employer at the same location unless they change their work permit.

- Most closed work permit applications will require you to have an official job offer from UHN. UHN PDR positions are exempt from [Labour Market Impact Assessments \(LMIA\)](#), but your supervisor will need to complete an [Application for an LMIA Exempt Foreign Worker at UHN](#) (UHN connection required). For guidance on the process and to submit the application form, your supervisor should contact Terri Oliver (Terri.Oliver@uhn.ca), UHN's Global Mobility Specialist.

A **work permit exemption** allows individuals to enter Canada for reasons connected to their employment abroad without the need for a work permit.

International PDRs will also need to clear the Immigration, Refugees and Citizenship Canada (IRCC)'s medical exams to work at UHN without restrictions. More information on the IRCC medical exams can be found [here](#).

Work Permit Renewal

If you have a work permit that is about to expire or that you need to change, you must apply to [Extend or Change the Conditions of your Work Permit](#). UHN Global Mobility must first file a new application to obtain a new "Offer of Employment Number" which is required to apply for your extension. A new Application for an LMIA-Exempt Foreign Worker at UHN form is required.

Processing times to renew visas and work permits fluctuate and can take up to 7 months to process. You may continue working under "maintained status" once you file your extension. Please provide UHN Global Mobility the IMM form generated by IRCC confirming your application has been filed. The Government of Canada suggests applying to extend your work permit **at least 7 months** before your current permit expires. Current processing times can be viewed [here](#).

Your Rights While Working in Canada

In Canada, employment rights are protected by law, and all Canadian workers, including temporary foreign workers, have the same rights and workplace protections.

The Government of Canada's [International Mobility Program](#) has a great resource to help temporary foreign workers understand their rights while working in Canada. This resource includes information on health and safety at work, rights for a workplace free of abuse, what to do if you are hurt or sick at work, information relevant if you lose your job or are changing employers, and resources on who you can go to for help. Access the resource [here](#).

Please direct any questions to Terri Oliver, Global Mobility Specialist at Terri.oliver@uhn.ca

Life in Toronto

Finding a Place to Live

Finding accommodations in a new city can be a challenge. We have put together a list of resources to help you with your search:

- Websites with rental listings in Toronto include [Realtor](#), [Craigslist](#), [Viewlt](#), [Kijiji](#), [Padmapper](#), and [Toronto Rentals](#). Exercise caution when interacting with individuals online to protect yourself from rental scams and fraud. Read [this U of T webpage](#) to learn about some of the common rental housing scams and tips for how to protect yourself.
- U of T also offers many resources to help students and PDRs find a place to live off campus, including an [Off-Campus Housing Portal](#). This portal posts rental listings and resources about renting, leasing, and moving to Toronto. Individuals who are not affiliated with U of T can make an account and sign in as a "guest" to access the information.
- On-campus housing is available to U of T graduate students at the [Graduate House](#) or [University Family Housing](#). Accommodation is subject to availability and eligibility.
- [Toronto Roommates](#) is an online resource for finding shared accommodation.

If you are having trouble finding accommodations in Toronto, please email the ORT (ortadmin@uhn.ca) and we can try to connect you with other students and PDRs who are looking for roommates or can share their experiences.

Managing Utilities (hydro, internet, phone, etc.)

It is important to consult your housing/rental agreement to determine whether the cost of heat, water, electricity, and/or internet is included in your rent. If they are not included, you may need to connect and pay for your own utilities. The information below is meant to help you get started with managing your utilities. For additional information, you may also wish to visit the City of Toronto [Utilities Webpage](#).

- **Electricity** – In Toronto, electricity is provided by [Toronto Hydro](#). You may qualify for a reduction on your electricity bill from the Ontario Electricity Support Program (OESP) run by the Ontario Energy Board. Learn more about the program [here](#).

- **Natural gas** – Many homes in Toronto are heated by natural gas. There are several natural gas suppliers to choose from in Toronto, including [Enbridge](#), [Just Energy](#), [Link Energy](#), and [Summitt Energy](#).
- **Internet** – There are over 50 internet providers in Toronto, which can be searched [here](#). Some of the most popular providers are [Bell Canada](#), [Rogers](#), [Telus](#), and [Teksavvy](#).
- **Mobile phones** – There are many cell phone providers that offer different plans. Some of major companies that offer cell phone plans include: [Bell Mobility](#), [Fido](#), [Freedom Mobile](#), [Koodo Mobile](#), [Rogers](#), and [Telus](#).

Tenants' Rights and Resources

The Ontario government has specific rules regarding tenant and landlord obligations and agreements. It is important to know your rights as a tenant.

- The **Residential Tenancies Act (RTA)** sets the rules for rent increases, evictions, repairs, and all other issues that affect tenants in Ontario. You can visit the Landlord and Tenant Board website at www.ltb.gov.on.ca to familiarize yourself with the RTA.
- U of T's [Student Life Housing website](#) provides students with workshops, resources, and supports to help them manage housing conflicts, find safe and affordable rentals, and learn about tenant rights and responsibilities.
- The [Federation of Metro Tenants' Associations](#) is a non-profit organization that advocates for tenants' rights by providing information and education. Their website provides information regarding tenant rights and what to do in the case of eviction or rent increases which exceed the provincial limit. They also provide a free telephone counselling service for Toronto tenants with questions related to the Residential Tenancies Act (RTA).

Tenant Insurance

Many renters in Canada purchase tenant's insurance to insure their belongings and to cover them for liability. This may be a requirement of lease agreements. Tenant insurance can be purchased through a bank or an insurance broker. Learn more about tenant insurance [here](#).

School System in Toronto

In Canada, public education is free for children and youth, regardless of immigration status. All children aged 6-18 years must attend school. Children may start attending junior kindergarten (JK) in Ontario in September of the year they turn 4.

The [Toronto District School Board](#) (TDSB) begins registration in January/February for the upcoming school year, starting in September. During registration, it is important to indicate whether you will require before-school and/or after-school care to ensure that a space is available for your child. You may view the registration page for the TDSB [here](#).

In addition to the TDSB, Toronto has a [Catholic District School Board \(TCDSB\)](#), the [Bloorview School Authority](#), which is associated with Holland Bloorview Hospital, and two French school boards, [Conseil scolaire Viamonde](#)

and [Conseil scolaire catholique MonAvenir](#). Each school board will have distinct registration dates and processes.

Review a registry of all schools and school boards in Ontario [here](#). The [Settlement Ontario](#) website has additional information and resources on the Ontario school system and how to enroll your child.

Arranging Childcare

Due to high demand, there are often waiting lists for licensed childcare centres. It is recommended that you begin contacting centres well in advance of your arrival if you are looking to arrange childcare.

There are two types of childcare in Canada: home-based and center-based.

- **Home-based childcare** is care provided at your home or a caregiver's home. Some home-based childcare is licensed by the Ministry of Education, which means they are obligated to adhere to government regulations which promote the health, safety, and well-being of the children and families enrolled in their program. Licensed home childcare is monitored by the City of Toronto and the Province of Ontario. Learn more about licensed home childcare in Toronto [here](#).
- **Centre-based childcare** is provided by centres licensed by either the City of Toronto or the Province of Ontario. The City of Toronto's website offers a searchable database of [Licensed Child Care Centres](#), as well as additional resources on finding [Before and After School Programs](#) in Toronto. They also have information on Indigenous early learning & childcare, services for children with extra support needs, and information on childcare fee subsidies [here](#).

Learn about City of Toronto recreation programs, camps, child and family programs, and youth services [here](#).

Graduate students seeking childcare or family support services should check with their university to see what supports are available or if on-campus childcare is offered.

- For graduate students attending the University of Toronto, the [Family Care Office](#) has several resources and supports for students with children, including the option to meet with a family care advisor. U of T's campuses' [Early Learning Centre](#) (ELC) offers licensed childcare through its centres at St. George, Ontario Institute for Studies in Education (OISE), and U of T Mississauga (UTM) and provides priority enrollment for the children of U of T students.

Financial Information

Banking

If you need to set up a chequing account, the [Canadian Government Chequing Accounts](#) website provides information and resources to help you make an informed decision on which financial institution and type of account to choose.

Major Canadian financial institutions you could explore include:

- [PC Financial](#) (no-fee chequing accounts, few locations—most interactions online)
- [Tangerine](#) (no-fee chequing accounts, few locations—most interactions online)
- [TD Canada Trust](#) (bank with branches and online access)
- [BMO](#) (bank with branches and online access)
- [RBC](#) (bank with branches and online access)
- [Scotiabank](#) (bank with branches and online access)

- [CIBC](#) (bank with branches and online access)

Many major financial institutions have special offers for individuals newly arrived in Canada, so inquire about these opportunities.

Taxes

Filing your taxes is an important spring activity in Canada. Your **tax return must be filed by April 30th** of each year. If you would like to learn about the Canadian tax system, visit the Canadian Government's [Learn About Your Taxes](#) webpage. On this page, you will find information about why you should file your taxes, what to include, common deductions for students, and what credits you might be eligible for, including deductions for childcare, moving expenses, and tuition credits.

You may also wish to explore the Canada Revenue Agency's (CRA) webpage on [Personal Income Tax](#) for more information.

When filing your tax return, you will need your tax slips (i.e., T4 or T4A). In late February of each year, UHN will make T4 or T4A slips available on the [Employee Self-Service \(ESS\) Portal](#) on the corporate intranet. If you are a graduate student, you may also need to access tax slips from your degree-granting institution.

- Instructions on how to set up the ESS Portal are included in the [Getting Paid at UHN](#) section. If you have problems logging in, email employeeselfservice@uhn.ca and include your TID and employee ID number.
- If you need help accessing your tax slip, call the People & Culture (P&C) Helpline at 416-340-4800 ext. 6363.
- If you have left UHN, you will no longer have access to the ESS Portal and, therefore, will not have access to your T4/T4A slips. T4/T4A slips for the current year will be mailed directly to the home address on file. If you have moved or the address on file is incorrect, please call the P&C Helpline at 416-340-4800 ext. 6363.

If UHN has not been withholding tax on each of your paystubs, you should expect to owe taxes after filing. Calculators are available online to estimate how much tax you may owe, such as [this one from Wealthsimple Tax](#). If you do not have tax withheld from each pay cheque, be sure to set savings aside so that you are ready for the tax bill in the spring.

Finding a Healthcare Practitioner

Finding a Physician

Graduate students and PDRs can access information and tools from the Ontario government that may be helpful in [finding a family doctor or nurse practitioner](#).

Acute care can be received at many of the walk-in medical centres across Toronto. Urgent care can be accessed in person at hospital Emergency Departments or online at [Toronto's Virtual Emergency Department](#).

Graduate students may have access to physicians and healthcare services through their degree-granting institution. U of T students can visit the [Health & Wellness Center](#) for appointments with healthcare professionals.

Finding a Dentist

The Ontario Dental Association provides information and a database that can be used to [find a dentist](#).

[U of T's Faculty of Dentistry Clinics](#) provide dental treatments by student dentists under the supervision of qualified dentists.

Finding Other Healthcare Professionals

[Altum Health](#) is a program within UHN that offers physiotherapy, registered massage therapy, chiropractic therapy, orthotic foot care, occupational therapy, acupuncture, mental health services, and more. They offer exclusive prices for TeamUHN. View the [UHN Altum Health](#) SharePoint page (UHN connection required) for price lists and more information.

The [Ontario Physiotherapy Association website](#) can help you identify a physiotherapist near you.

Transportation in the City

Toronto has an extensive public transportation network of buses, streetcars, subways, and regional commuter trains. The [Toronto Transit Commission \(TTC\)](#) provides public transportation within the City of Toronto.

- TTC uses a card-based fare system called **PRESTO** with a reloadable card you tap when entering the subway, buses, or streetcars. PRESTO cards can be purchased from most TTC subway stations and Shoppers Drug Mart. You can register your card [online](#) and set the card up to automatically reload with a set amount of money as needed. Alternatively, you can manually reload your PRESTO card at TTC subway stations. You can also add a PRESTO Card to your digital wallet on your mobile device. Learn all about PRESTO [here](#).
- If you ride TTC frequently, you may wish to load a TTC monthly or annual pass to your PRESTO Card to save on fares. More information on fare and pass pricing can be found [here](#).
- You can also pay your TTC fare by tapping your eligible debit or credit card, or card on your mobile wallet, when you board a vehicle or enter a subway station. More information about this pay option can be found [here](#).
- When you pay your fare using PRESTO, you get a two-hour transfer that allows you to enter and exit the TTC as much as you'd like within a two-hour period.

Regional transportation around the **Greater Toronto Area** includes [GO Transit](#), [MiWay \(Mississauga transit\)](#), [York Region Transit](#), and [Durham Region Transit](#). The PRESTO Card can also be used to pay for fares on GO Transit and other regional transit provider routes.

Toronto is also a great place to get around by **bike**! For cycling maps of the city and bicycle safety information, check out the City of Toronto's [Cycling in Toronto](#) website. Toronto also has an extensive [Bike Share Program](#) with over 600 bike stations around the city for use throughout the year. Members of Team UHN can receive 25% off a Bike Share Toronto Annual Membership. Learn more on the intranet [here](#).

Toronto's Climate

Toronto has a temperate climate with four seasons.

- In the winter, Toronto's weather is often below 0°C, especially at night, and it can go as low as -20°C or colder with a wind-chill effect during the coldest months (January-February).
- The temperature in summer is usually above 20°C, but can have humid weather with temperatures upwards of 30-40°C during a heatwave.

It is important to be prepared for all seasons, especially if you are arriving in Canada during the winter. This includes ensuring you have warm clothing, including hats, coats, gloves, and boots, and making sure you cover your skin when outside. Advice on preparing for winter in Canada and how to protect yourself from exposure to the cold can be found [here](#).

Using a weather app such as Environment Canada's [WeatherCAN](#) or checking [The Weather Network](#) online can also help you prepare for Toronto's climate and give you warnings of hazardous weather conditions that may affect travel, health, and safety.

Entertainment

Toronto is a lively city! Below is a list of some of the places, attractions, and events you may enjoy exploring:

- **Festivals and Events:** You can find information about upcoming festivals and what is happening in the city by checking out [BlogTO](#) or the [City of Toronto Events Calendar](#).
- **Restaurants:** Toronto is filled with restaurants of all varieties. For ideas on eating out, check out food review sites, such as [Yelp](#), [OpenTable](#), [Resy](#), or [BlogTO](#), which offer restaurant reviews, reservations, and recommendations. For food lovers interested in trying new cuisines and restaurants, Toronto's [Winterlicious](#) and [Summerlicious](#) are popular cross-city food events with three-course prix fixe menus at many different price points.
- **Toronto Public Library (TPL):** [Toronto's Public Library](#) system has an extensive collection of books and movies to borrow, and also offers educational seminars, book clubs, book readings, and more. Anyone who is living, studying, or working in Toronto may apply for a public library card. The Toronto Public Library also has a [tpl:map](#) program where free passes can be obtained to many of the arts and cultural institutions in Toronto.
- **Museums:**
 - o [The Art Gallery of Ontario](#) (AGO) – Admission is free for Indigenous Peoples and individuals 25 and under. The AGO is free for everyone on the first Wednesday night of each month.
 - o [The Royal Ontario Museum](#) (ROM) – Offers [free admission](#) on the third Tuesday of the month from 4:30 to 8:30 pm.
 - o [The Aga Khan Museum](#) – Offers [free admission](#) on Wednesday evenings from 4-8 pm.
 - o [The Gardiner Museum](#) – Offers [free admission](#) on Wednesday evenings after 4 pm.
 - o [The Museum of Contemporary Art](#) (MOCA) – Offers [free admission](#) on Friday nights after 5 pm.
 - o [The Bata Shoe Museum](#) – Offers [free admission](#) on Sundays.
 - o [Casa Loma](#)
- **Music, performance, and entertainment venues:**
 - o [The Toronto Symphony Orchestra](#) (TSO) – Offers discounts for those ages 15-35 through [TSOUNDCHECK](#)

- [The Canadian Opera Company](#) (COC) – Offers discounts for those under 30 through the [Opera Under 30 Program](#)
 - [The National Ballet of Canada](#) – Offers discounted tickets for on the day of the performance or for individuals 35 and under through [DanceBreak](#).
 - [Canadian Stage](#) (theatre performances) – Offers [discounted tickets](#) for those 29 and under.
 - [Soul Pepper Theatre](#) – Offers [free tickets](#) for those 25 and under.
 - [The TIFF Bell Lightbox](#) – Toronto Independent Film Festival cinemas
 - For concert listings and tickets, check out [Toronto Ticketmaster](#)
- [The Toronto Zoo](#)
 - [Ripley's Aquarium](#)
 - [Canada's Wonderland](#)
 - [The Allan Gardens Conservatory](#) – Free admission
 - **Nature Parks and Trails:** Toronto is also home to several nature conservation areas, parks, and trails. You can find maps and information on trails around the city [here](#).

Toronto's CityPASS: Admission to four Toronto attractions (choices include the CN Tower, ROM, Casa Loma, Toronto Zoo, and City Cruises Toronto) can be bought at a discounted rate through [Toronto's CityPASS](#).

Employee Discount Program

TeamUHN has access to thousands of discounts through Perkopolis or directly from the vendor in a range of categories, including financial, food and restaurants, travel, fitness and wellbeing, shopping, and services at UHN. More information on all available discounts can be accessed on the [Employee Discounts SharePoint page](#) (UHN connection required).

Part 4. Getting Started at UHN

New Employee Resources

When getting started at UHN, the [TeamUHN](#) webpage is a great resource! You'll find key tools for [new employees](#), and information on onboarding requirements, eLearning, digital tools, and research staff access.

All UHN students and PDRs are encouraged to read the [UHN New Employee Handbook](#), which includes useful information about UHN, available programs and services, and critical information on safety, inclusion, research, etc. It also includes important details on how to complete your health screening and how to obtain a Photo ID.

*For questions or help regarding **onboarding**, please contact your supervisor, your institute's People & Culture (P&C) talent acquisition consultant (outlined in the [Help?! Who to Contact section](#)), email employeeonboarding@uhn.ca, or contact the Employee Helpline at 416-340-4800 ext. 5995.

Remote Digital Access

If you are not on-site, you can access UHN systems and connect to the corporate intranet in one of two ways:

1. Access remotely through a **VPN** (virtual private network). To do this, please follow [these instructions](#).
2. Alternatively, you can go to https://www.uhn.ca/corporate/For_Staff and click on Corporate Intranet to sign-in using your UHN username and password. *This method will allow you to access and browse TeamUHN tools and resources on the corporate intranet; however, connecting this way will not allow you to access all the linked resources in this document.

If you have questions or any difficulties with access please email the ORT at ortadmin@uhn.ca or reach out to the UHN service desk at help@uhn.ca, 416-340-4800 ext. 4357 (HELP), or through the Service Portal [here](#).

Getting Started with Office 365

UHN students and PDRs have access to Office 365, including an online suite of tools, including email, Excel, Word, PowerPoint, Microsoft Teams (MS Teams), OneDrive, and SharePoint.

Information on how to access your Office 365 account, including setting up multi-factor authentication, can be found [here](#). Access Office 365 Frequently Asked Questions (FAQs), MS Teams FAQs, Tips & Tricks, and more on the UHN Digital website [here](#).

If you are having difficulties accessing Office 365 on your desktop, please email ortadmin@uhn.ca for support.

Getting Around UHN

Maps and directions to various UHN sites can be found on the [UHN Directions](#) webpage. This page also contains links to general information about parking and accessibility services at UHN.

A [UHN Shuttle](#) runs between Toronto General Hospital and Toronto Western Hospital. Click [here](#) to see the shuttle bus schedule. **Note that your UHN ID badge is required to ride the shuttle.**

Getting Connected at UHN

- Register with the Office of Research Trainees (ORT) by completing the [ORT Registration Form](#) and join the [UHN Student and PDR Slack Community](#) to stay connected with your peers.
- Make sure your profile is included in the [Research 411 Directory](#) on the intranet with accurate contact information. If your profile is missing or requires updating, email staff.directory@uhn.ca. Note: A Research 411 profile is required to apply for research grants through UHN.
- Learn more about TeamUHN, access employee tools and resources, and stay up to date with UHN News by exploring the [UHN Corporate Intranet](#). The [UHN Community intranet page](#) includes links to many employee and professional development resources, such as benefits, information on getting paid, holiday & pay information, leadership programs, and wellness information.

- Explore [UHN's What's Happening Now SharePoint page](#) (UHN connection required) to learn about learning opportunities, events, and key notices. UHN connection is required. Bookmark the page and check regularly. Updates are made throughout the week.
- Stay connected with the [UHN Library & Information Services](#) for learning opportunities and research tools.

UHN Policies

Graduate students can refer to the [UHN Graduate Student Policy](#) (UHN connection required) for information about the onboarding and off-boarding process, PI responsibilities, and key policies for students. Graduate students should also refer to the policies at their degree-granting institution. University of Toronto graduate students can refer to the [School of Graduate Studies \(SGS\) Policies](#).

PDRs can refer to the [UHN Postdoctoral Researchers Policy](#) (UHN connection required) for information about assignment criteria, terms and conditions, payments, paid time off (including vacation and parental leave), onboarding and off-boarding process, PI responsibilities, and more.

Research volunteers can refer to the [UHN Volunteers in Research Policy](#) (UHN connection required) for more information about the onboarding and offboarding processes, restrictions to volunteer activities, supervisor responsibilities, and more.

All students and PDRs are encouraged to review the additional [UHN Policies Relevant to Research Trainees \(UHN connection required\)](#). This includes policies on general lab safety, dispute resolution, responsible conduct of research, and data management. To view all UHN Research Policies & Procedures, please refer to the corporate intranet site [here](#).

View all UHN policies [here \(UHN connection required\)](#). If you have any questions or concerns about any of the policies at UHN, please email FOI@uhn.ca.

Part 5. Resources and Benefits for Team UHN

Getting Paid at UHN

The onboarding process includes steps to get added to the UHN payroll. Pay at UHN occurs on a bi-weekly basis. The pay schedule can be found on the intranet [here](#).

Pay statements and federal tax slips (T4s) are available on the [Employee Self Service Portal](#) (UHN connection required). Instructions to access the Employee Self Service portal can be accessed [here](#) (UHN connection required). Employee Self Service access is auto provisioned for new employees. If there are problems logging in, send an email to employeeeselfservice@uhn.ca and include their legal name, TID, and employee ID number.

UHN is required by Canadian law to deduct [employment insurance \(EI\)](#) premiums and [Canada Pension Plan \(CPP\)](#) contributions from employees' pay. Employers must remit these amounts to the Canada Revenue Agency (CRA) along with the employer's share of EI premiums and CPP contributions.

Employment Insurance (EI) benefits can be accessed if individuals lose their job through no fault of their own, or for sickness, maternity, and parental leaves. Learn more about EI benefits and eligibility on the [Government of Canada website](#). PDRs paid through UHN payroll who meet the eligibility requirements can apply for EI upon termination, regardless of work permit status.

The Canadian Pension Plan (CPP) is a retirement pension plan that provides monthly benefits upon retirement. Individuals who have contributed to CPP can receive the pension even if they no longer live in Canada. Please visit [the Government of Canada CPP website](#) for more information.

Vacation and Leaves of Absence

The annual remuneration for UHN PDRs includes paid time off for vacation and statutory and civic holidays. A list of the paid holidays for full-time employees can be found on the intranet [here](#).

PDRs who are paid fully or partially (have some external funding) through UHN payroll are eligible to receive maternity, parental, and adoption leave. Information on PDR vacation time and maternity, parental, and adoption leave is included in the [UHN Post-Doctoral Researchers policy](#) (UHN connection required). The maternity, parental, and adoption leave policies and checklists are available on the intranet [here](#).

Graduate students must refer to the vacation and leave of absence policies for their degree-granting institution. The U of T Leave of Absence Policy, including information on the SGS Parental Grant, can be reviewed [here](#).

Understanding PDR Contracts

The UHN PDR salary grid is below.

PDR Ranges (Effective Oct 1, 2025)			
	PDR Level I	PDR Level II	PDR Level III
Minimum	\$54,902	\$65,882	\$76,862
Maximum	\$71,372	\$82,352	\$93,333
Minimum Education	PhD or MD	PhD or MD	PhD or MD

In accordance with the grid, all PDRs employed through UHN must be paid above the minimum salary of \$54,902.00 (as of October 1, 2025). In cases where PDRs receive a fellowship or award that is less than \$54,902.00, their PI must supplement their salary to meet or exceed the UHN minimum salary. It is recommended that all competitively recruited UHN PDRs be placed in Level II and PDRs with competitive awards (\$25,000 or more) be placed at Level II or higher.

UHN PDRs paid on the UHN payroll are eligible for UHN's Annual Compensation Review (ACR) (formerly known as Total Compensation Program (TCP)), which provides an annual review and adjustment of eligible employee salaries. ACR salary adjustments are effective October 1st of each year. Information about UHN's ACR can be found on the intranet [here](#).

Before joining UHN, PDRs receive an offer letter outlining important employment information including how to participate in the health and dental benefits plans and onboarding instructions. This letter forms your employment contract with UHN and should be referred to understand employment rights including rights around termination. Termination of PDR contracts is rare but can occur if there is no longer funding to support the position. The [Employment Standards Act](#) (ESA) outlines the termination rights of all Ontario employees. The [Ontario Termination of Employment website](#) provides information on the minimum required written notice of termination and/or termination pay in lieu of written notice, which is dependent on the period of employment.

Terminated PDRs are given support from their People Consultant throughout the process. Individuals paid through UHN payroll are given a termination package (including working notice and/or termination pay) that takes many factors into consideration. PDRs are encouraged to review their contracts to determine their rights on written notice of termination and/or termination in lieu, as it may exceed the minimum requirements in Ontario.

Termination packages are not affected by work permit status. If the PDR is on an employer-specific (closed) work permit, their permit would still be valid if they secured another postdoctoral researcher position at UHN. Information for temporary foreign workers about rights upon termination and information on changing employers can be found on the Government of Canada's [International Mobility Program](#) website.

PDRs paid through UHN payroll who meet the eligibility requirements, including PDRs on employer-specific (closed) work permits, may also apply for Employment Insurance (EI) benefits if their employment is terminated or if their contract ends. Please visit [the Government of Canada website](#) for more information.

Health and Dental Benefits

Graduate students are provided with health and dental benefits by their degree-granting institution. U of T students can find detailed information on benefit coverage and policies [here](#). U of T graduate students with teaching assistant positions may be eligible for additional top-up benefits through [CUPE](#).

Effective January 1, 2025, PDRs paid through UHN payroll will receive health and dental benefits through UHN's Group Benefits program, [myFlexBenefits](#) (UHN connection required), provided by [Sun Life](#).

- At the time of enrollment, PDRs will have the opportunity to choose from one of the three benefit plan options (Bronze, Silver, or Gold) to meet their personal and/or dependents' health needs.
- People & Culture hosted information sessions for PDRs on myFlexBenefits, and the recordings are available on the [Non-Union benefits intranet page](#).
- For questions about benefits, contact Benefits@uhn.ca.

PDRs also have access to the [Employee Family Assistance Program \(EFAP\)](#) (UHN connection required) for support with personal and work-related pressures and stress. EFAP provides free and confidential counselling on topics such as achieving wellbeing, managing relationships and family, dealing with workplace challenges, tackling addictions, legal advice, and financial guidance. Learn more from the EFAP [brochure](#).

- To access the EFAP use the TELUS Health One app. Instructions on how to download the app are [here](#). Username: UHN, Password: Lifeworks.
- You can also call 1-844-880-9137 toll-free, 24 hours a day, 7 days a week.

Workplace Accommodations at UHN

UHN employees (including PDRs) requiring a workplace accommodation should contact [UHN Health Services](#) (UHN connection required). UHN will attempt to accommodate employees with disabilities (visible and invisible) in a way that respects their dignity and privacy and supports employees to perform their work and fully participate in employment at UHN.

- The accommodation process is outlined in the [Accommodation in Employment for Persons with Disabilities](#) policy (UHN connection required).

For more information, contact Health Services by phone (416-979-4441), by filling out the [Health Services Request for Information Form](#) (UHN connection required) or by reaching out to a site-specific Health Services location (emails below).

Site Specific Contacts:

Site	Contact Information
Toronto General	OHSTGH@uhn.ca
Princess Margaret	OHSPM@uhn.ca
Toronto Western	OHSTWH@uhn.ca
Toronto Rehab	OHSTRI@uhn.ca
West Park Healthcare Centre	OHSW@westpark.org

UHN Wellness Resources

UHN Wellness provides a comprehensive approach to improving the health and wellbeing of TeamUHN. The [UHN Wellness intranet site](#) shares information on UHN's emotional and mental wellbeing tools, informational resources, and wellness programs. Subscribe to [UHN's Wellness Weekly Newsletter](#) to stay up to date on news, tips, events, and resources.

A list of supports for emotional wellbeing of TeamUHN are available on the intranet [here](#), including BRITE Resilience program, UHN Cares, Refresh program, and more. Free, confidential counselling is provided to UHN employees through the [Employee Family Assistance Program \(EFAP\)](#) (UHN connection required).

UHN has dedicated spaces for spiritual reflection at all hospitals. Locations and hours can be found [here](#). In the Princess Margaret Cancer Research Tower (PMCRT) room 4-504 is a dedicated space for prayer, spiritual reflection, and nursing.

In addition to mental wellbeing, UHN also has resources for your physical wellbeing. UHN has three gym facilities located at Princess Margaret Cancer Centre, Toronto General Hospital, and Toronto Western Hospital. The [UHN Wellness intranet site](#) shares information about gyms and membership options, virtual and on demand fitness classes, and information about UHN intramural sports. Goodlife fitness memberships are also available at a discounted [UHN corporate rate](#) (UHN connection required).

Wellness Resources Outside of UHN

If you are experiencing a mental health-related crisis, seek help immediately by:

- Contacting your doctor
- Going to the emergency room of the nearest hospital
- Calling 911 or Telehealth Ontario at 1-866-797-0000

Graduate students can access wellness resources from their degree-granting institution. U of T students can access [Health and Wellness Resources and Supports](#), including mental health working groups and health & wellness centres that provide free wellness counseling and workshops. U of T students can also access U of T gyms and their services.

The [Ontario government website](#) is a great resource to help find mental health and addiction services in your community.

There are many community resources that provide mental health and wellness resources also. These include:

- [ConnexOntario](#) – Provides 24/7 access to information about mental health, addiction or gambling services and supports in your community.
- [Canadian Mental Health Association](#) – Offers many mental health resources, services, and supports. Their [Mental Health Quick Guide](#) provides a comprehensive list of Toronto Mental Health Resources, Clinics, and Helplines.
- [Affordable Therapy Network](#) – A directory of therapists offering low cost and sliding scale counselling across Canada.
- [211 Ontario](#) – A helpline that connects people to the social services, programs and community supports they need.
- [988 Suicide Crisis Helpline](#) – A nation-wide suicide crisis helpline that can be accessed 24/7 by phoning or texting 988. Offers support that is bilingual, trauma-informed, culturally appropriate, and available to anyone in Canada.

- [Good2Talk](#) – Provides free, confidential support 24/7 through phone (1-866-925-5454), text, or online chat.
- [Gerstein Crisis Centre](#) - Offers 24/7 telephone support, in-person mobile crisis team, community support referrals, and more. Call 416-929-5200.

UHN Walk Safe and Call Safe Programs

UHN security operations offers two safety programs to protect UHN staff, students, and volunteers. The Walk-Safe program offers a security guard to escort individuals to and from UHN sites safely. The Call-Safe program provides hourly safety-check calls to individuals working alone or who feel they are in high-risk situations. Information on how to access the programs can be found on the intranet [here](#).

Ensuring Respect in the UHN Workplace

UHN is committed to an environment where everyone is treated with respect, dignity, and equitable treatment. Every member of TeamUHN must uphold the [Fostering Respect in the Workplace policy](#) (UHN connection required). Anyone found to have engaged in behavior constituting discrimination and/or harassment in UHN environments is subject to disciplinary action.

If you have witnessed discrimination and/or harassment at UHN, you are encouraged to reach out to P&C to report it. As outlined in the [Fostering Respect in the Workplace policy \(UHN connection required\)](#), leadership is able to initiate measures to correct inappropriate behaviors even in the absence of a formal complaint.

UHN has a robust process for complaints that is best in class. There are three investigators in the [Centre of Excellence for Workplace Investigations](#) (UHN connection required), which assists in resolving workplace conflict and conducting fair and objective workplace investigations. The process involves working with a People Consultant to complete a complaint form. Your People Consultant will provide support through the process. Depending on the content, the complaint will be handled internally by UHN investigators or a People Consultant or handled by an external investigator. Learn more about the process and UHN's policies on Fostering Respect in the Workplace, Violence & Domestic Violence in the Workplace, Anti-Black Racism & Anti-Racism, and Gender Identity [here](#) (UHN connection required).

Support for Financial Emergencies

Members of TeamUHN have access to free and confidential counseling, including financial support for financial emergencies and legal support services through the [Employee Family Assistance Program \(EFAP\) \(UHN connection required\)](#). Learn more from the EFAP [brochure](#) (UHN connection required).

Individuals may be eligible for financial support through [Ontario Emergency Assistance](#) or the [Ontario Works programs](#).

Part 6. Research Tools and Resources

Have a difficult question? Not sure where to start or where to go for help? Start by reviewing the tools and resources below. If you can't find an answer below, submit your question to the [UHN Research Help Center](#) (UHN connection required) or email the ORT at ortadmin@uhn.ca.

Funding Opportunities

The ORT has created a list of awards, conference grants, and fellowship applications for graduate students and PDRs. This [list of funding opportunities](#) is regularly updated and is yours to explore!

The ORT provides internal funding opportunities for students and PDRs:

- [ORT Conference Participation Awards](#) – Awarded to UHN graduate students and PDRs to support their participation at national and international conferences by up to \$500. Three award cycles are held each year, with application deadlines in the first week of March, July, and November.
- [OSOTF Unilever/Lipton Graduate Fellowship](#) – Awarded to UHN graduate students registered with U of T Faculty of Medicine who are studying in the neurosciences field and demonstrate financial need. Applications are due every year in June or July.

Funding applications at UHN are managed through the Business Hub. A step-by-step guide for applying for funding is available on the [Research Intranet](#). Information on access and use of the Grant Application module in Business Hub is also included.

Library and Journal Access

UHN Library and Information Services

All students and PDRs have access to the [UHN Library and Information Services](#). UHN Library and Information Services provides educational opportunities and services to support professional development, clinical practice, and research. There are several library locations across UHN, and the Virtual Library can be accessed from anywhere. When working offsite, some resources may ask you to log in using your UHN email or T-ID and password.

If you have questions about UHN library access or services, email UHNLibraries@uhn.ca.

U of T Library Access

Graduate students will also have library and journal access through their degree-granting institutions. U of T students can access the [U of T Libraries](#) using their [UTORID](#).

UHN PDRs can also access the U of T Libraries by following these [instructions](#) to set up a UTORID as an affiliated teaching hospital PDR.

Research Facilities and Services

The [Research at UHN](#) page on the corporate intranet is a great place to look for research news, forms, departments, tools, services, or individual researchers. The [Research Solutions and Services \(RSS\) toolkit](#) (UHN connection required) provides information and contacts for the service departments and teams that support research at UHN, some of which are highlighted below.

Research Safety

For policies and protocols to ensure your safety in the lab, review the resources on the [Research Safety at UHN](#) intranet page. This includes information on Incident/Accident Reporting, Safety Standard Operating Procedures, and Safety Checklists for New Employees.

Research Laboratory Services

[Research Laboratory Services](#) (UHN connection required) is comprised of three groups: Laboratory Operations, Sterilization Services, and Supply Center. If you are looking for information about keys or card access to labs, waste disposal, lab coat exchange, glass washing, autoclaving, lab equipment or supplies, and other related topics, this is the place to go.

Animal Resources Centre

[Animal Resources Centre](#) (ARC) (UHN connection required) provides facilities and support for biomedical research involving animal models of human diseases. ARC services include animal procurement, housing, husbandry, technical services, medical care, and consultation on animal studies.

UHN Cores

[UHN Research and Innovation Cores](#) provide access to state-of-the-art facilities, equipment, and expertise that enable high-quality research. The UHN Cores serve UHN research study teams and are also available to investigators worldwide. The UHN Research & Innovation Cores cover 12 areas:

1. Biobanks
2. Bioinformatics including High Performance Computing and Biostatistics
3. Cell & Vector Production
4. Clinical Trials
5. Flow Cytometry & Cell Sorting
6. Genomics
7. Imaging
8. Innovation & Engineering, including Techna and Healthcare Human Factors
9. Laboratory Services including Mass Spectrometry, Histology and Biomarkers, Pathology, and Diagnostics
10. Microscopy
11. Nuclear Magnetic Resonance
12. Theranostics

Visit [the UHN Research and Innovation Cores website](#) to learn about the facilities and services available. For questions about the UHN Research and Innovation Core facilities, email UHNcoresCustomerRelations@uhn.ca

Additional Facilities and Services for UHN Researchers

There are many additional services and tools that are available for UHN researchers. We encourage students and PDRs to ask their supervisors, lab managers, and colleagues about available tools and how to access them.

Here is a list of some common equipment and facilities/services:

- [Metabolomics Core Facility at KDT](#)
- [Real-time PCR equipment at PM, KDT, and PMCRT](#)
- [Real-time PCR equipment at TGHRI](#)
- [Drug Development Program \(DDP\) Biomarker Laboratory](#) – Cytomics, genomics, and pharmacokinetics for molecular profiling
- [UHN Machine Shop](#) – Design and build medical devices; modify existing equipment; design and build items for any industry
- [Clinical Research Facilities](#) – Shared clinical research laboratory space (Level II) for clinical researchers at TGHRI.

Epic for Researchers

Graduate students and PDRs who work with patient data may need to use Epic for their research projects. Information on what studies go into Epic, how to get Epic access (including required MyLearning training), and tools and resources about how to use Epic can be found on the EPIC Guidance for Researchers SharePoint [here](#) (UHN connection required). For questions regarding access, contact the UHN Digital HELP Desk at help@uhn.ca.

Your PI can help you determine which Epic security role is appropriate for your research capacity. If they are not able to advise what Epic role is appropriate, you can email digital-research@uhn.ca (CC your manager) for assistance.

People & Culture

For information about Payroll, Policies, Performance and Learning, Health Services and Benefits, Workplace Safety and Wellness, Respect and Civility, etc., you can explore the [People & Culture](#) page on the UHN corporate intranet.

If you are looking for information regarding conflict resolution or the complaint process at UHN, we encourage students and PDRs to refer to the UHN policy on [Fostering Respect in the Workplace \(UHN onnection required\)](#). You may also wish to reach out to your institute's People & Culture consultant or contact the Employee Helpline at 416-340-4800 ext. 5995 with questions or concerns.

To find your People Consultant contact information, visit [this page](#) (UHN connection required).

Research Integrity & Ethics

To learn about researcher responsibilities, research authorship, conflict of interest, data ownership, reporting research misconduct, etc., at UHN, students and PDRs can explore the [Research Integrity](#) webpage.

- For information on research misconduct and how to report a concern, review the UHN policy on [Responsible Conduct of Research](#) (UHN connection required).
- For information on authorship and publishing, review the UHN policy on [Academic Authorship & Open Access Publications](#) (UHN connection required).

- To request a consultation about a potential concern or ask specific questions, you can reach out to Research Quality Integration (RQI) at integrity@uhn.ca or contact a member of the Research Integrity team below:

Research Quality Integration:

- o Mike Voth, Mike.Voth@uhn.ca, Director, Research Quality, Integrity, and Risk Management
- o Christine Snidal, Christine.Snidal@uhn.ca, Manager, Research Integrity and Responsible Conduct

Research Integrity Advisors:

- o Dr. Bryan Coburn, Bryan.Coburn@uhn.ca, 416-581-7457
- o Dr. Eleanor Fish, En.Fish@utoronto.ca, 416-565-0702
- o Dr. Jordan Feld, Jordan.Feld@uhn.ca, 416-340-4584

The [Research Ethics Review Services](#) webpage has critical information for individuals working with human subjects at UHN or as part of multi-site projects. This includes information on the ethics approval process, CAPCR submission, FAQs, documents and forms, and important contacts. For general Research Ethics Board (REB) questions, email reb@uhn.ca.

The [UHN Clinical Research Hub](#) SharePoint page (UHN connection required) provides guidance and documentation tools for all stages of clinical research, such as EPIC guidance for clinical research, policies, standard operating procedures (SOPs), and document templates, protocols for data management, finance, and more.

Commercialization, Legal and Intellectual Property

[Commercialization at UHN](#) is a team that facilitates the transformation of research innovations into medical products that improve healthcare. They work with scientists and clinicians to advance research, protect intellectual property (IP), and provide support with business development strategy, licensing, and more. They also have an Accelerator Fund to help advance early-stage technologies.

For detailed information regarding patents, inventorship, and UHN's [Intellectual Property Policy \(UHN connection required\)](#), refer to the [UHN Intellectual Property](#) intranet page.

For inquiries about licensing, partnerships, and media, please email mark.taylor@uhn.ca. For all other inquiries, email commercialization@uhn.ca. You can also subscribe to the [Commercialization at UHN email list](#).

Pride in Patient Engagement in Research (PiPER)

[Pride in Patient Engagement in Research \(PiPER\)](#) is a strategic research initiative at UHN that aims to make engaging patients, families, and care partners in research a new culture that can enhance health research, outcomes, and care experiences for all.

The PiPER team has a toolkit about engaging people with lived experience (PLEX) in research for all UHN researchers and PLEX. The toolkit includes templates on how to help plan and implement patient engagements and educational videos on what PLEX in research is and how to write plain language summaries. View the toolkit on the [PiPER website](#) in the Our Resources section.

The [PiPER SharePoint](#) (UHN connection required) is a resource designed to support the navigation and implementation of engaging people with lived experience (PLEX) as partners in research.

The SharePoint includes the PiPER Toolkit, the UHN-only PiPER Grants Call for Proposals, access to free coaching and fee-based consulting, and a detailed Frequently Asked Questions section to support all stages of PLEX engagement. The PiPER SharePoint also offers templates and case scenarios that are useful during grant development.

To learn more about PiPER, visit their website [here](#). You can email them at piper@uhn.ca.

Inclusion, Diversity, Equity, and Accessibility (IDEA)

UHN is committed to creating an inclusive environment that values diversity and encourages people to contribute their personal best. UHN's Office of [Inclusion, Diversity, Equity, Accessibility and Antiracism](#) (IDEAA) advocates and champions the human rights and equity-seeking needs of TeamUHN, patients, and community members. Their website provides tools, training and education resources, and links to different employee resource groups, including the Black Legacy, Accessibility, and 2SLGBTQIA+ committees.

If you have a concern or would like to get involved with UHN IDEAA initiatives, you can email Jacqueline Silvera, Director, jacqueline.silvera@uhn.ca. All inquires are treated in an objective and confidential manner in accordance with UHN's [Fostering Respect in the Workplace Policy](#) (UHN connection required). There is also a confidential Workplace Ethics Line that can be reached 24hr/7days a week: 1-866-344-4491.

View UHN Research's IDEA SharePoint page [here](#) (UHN connection required) to learn about the IDEA committee, access IDEA resources, view upcoming and past IDEA seminars and initiatives, and more. It also includes information on UHN's 2SLGBTQIA+, Accessibility Advisory, Black Legacy, and UHN Women employee resource groups. For information about IDEA at UHN Research, please email edi-research@uhn.ca.

Part 7. Career and Professional Development

ORT Workshops and Resources

The ORT is dedicated to supporting student and PDR skills and career development. Our programming includes:

- **Upskill workshops** to develop research and transferable skills such as programming, grant writing, project management, and communication.
- **Career exploration** events to discover different career options and network with career professionals.
- **Peer-to-Peer workshops** where graduate students and PDRs can gain teaching skills by sharing their research and technical knowledge with peers.
- **Social events** to build connections amongst TeamUHN and stimulate collaboration.

View ORT upcoming and past workshops and events [here](#).

Access recordings of past workshops on our [video library](#). UHN credentials are required to access some of the recordings.

Have an idea for a workshop you'd like to attend or help plan? We'd love to hear your ideas and work together! Email ortadmin@uhn.ca.

UHN Learning Opportunities

[UHN Library & Information Services](#) offers practical and interactive online workshops designed to make you a skilled user of library resources and services. This includes workshops on reference managers, PubMed, how to use Medline, and how to write reviews. Check out their upcoming live events and workshop recordings.

UHN's [Skillsoft Percipio Learning Platform](#) (UHN connection required) is a virtual learning platform that provides TeamUHN access to free self-paced online courses and virtual live online classes to advance their skills and professional development. Topics include leadership, management, inclusion, diversity, equity and accessibility, data literacy, business, technology, and communication skills. Users can also complete project management training from the Project Management Institute, which satisfies requirements for the Project Management Program (PMP) certification.

[UHN's MyLearning Portal](#) provides students and PDRs access to free online and instructor-led Learning and Development courses on topics such as resume skills, job interview skills, emotional intelligence, accessible communication, and more.

[Biosciences Oncology Leadership Development \(BOLD\) Program](#) is a leadership development program currently being offered for senior PhDs and PDRs at Princess Margaret Cancer Centre.

Career Development Resources and Organizations

General Career Development

- [Life Science Career Development Syndicate \(LSCDS\)](#) – **For everyone** - A U of T student initiative created to bridge the gap between academia and industry. LSCDS hosts networking events, mentorship programs, industry team case studies, career seminar series, and more.
- [Penn Career Services Graduate and Postdoc Resources](#) – **For everyone** – A series of videos covering career development topics, including how to convert your CV to a resume, questions to ask when networking, job searching tips, how to use LinkedIn, networking tips for introverts, how to prepare for interviews, and more.
- [Biomanufacturing Hub Net \(BioHubNet\)](#) – **For everyone** – An immersive talent development program aimed at producing industry-ready, highly qualified personnel through comprehensive training initiatives with deep industry engagement.
- [School of Graduate Studies \(SGS\) at U of T](#) – **For U of T graduate students** - Provides many programs and supports for graduate students, including the [Graduate Centre for Academic Communication \(GCAC\)](#), [Centre for Graduate Mentorship & Supervision \(CGMS\)](#), and [Centre for Graduate Professional Development \(CGPD\)](#).
- [Student Life – Career Exploration & Education at U of T](#) – **For U of T students** - Provides a range of services including one-on-one career advising, job shadowing, and CV/resume support.

Academic and Teaching Resources

- [From Postdoc to Research Faculty Crash Course](#) – **For everyone** – Program designed to provide comprehensive support to individuals applying to research faculty positions. Workshops and training on topics such as academic CV and cover letters, research statements, teaching dossiers, equity, diversity, and inclusion statements, chalk talks, and negotiations. Webinar recordings available.
- [Developing your Teaching Dossier](#) – **For everyone** - Four self-paced, online modules provided by U of T for students and PDRs to reflect on their teaching and develop their teaching dossier.
- [Building your Teaching Dossier](#) - **For everyone** – U of T's Centre for Teaching Support and Innovation provides comprehensive information on how to build a teaching dossier.
- [Teaching Statement Resources](#) – **For everyone** - Vanderbilt University provides educational resources on how to prepare teaching statements.
- [Future PI Slack](#) – **For PDRs** – An informal peer support group for biomedical postdocs on the academic track.
- [Teaching Assistants Training Program \(TATP\)](#) – **For U of T graduate students** - Peer-training program providing pedagogical support to TAs and graduate students via workshops, certificate programs, and awards.

- [Teaching in Higher Education \(THE500\)](#) – *For U of T graduate students* – A course for senior U of T PhD candidates to improve their teaching practice by becoming more knowledgeable about different teaching and learning styles.

Business and Entrepreneurship Resources

- [Science to Business Network \(S2BN\)](#) – *For everyone* - Hosts workshops and networking events aimed at helping students and PDRs who are interested in commercialization, entrepreneurship, and career paths outside of academia in their career-related development and transitions.
- [Intellectual Property Education Program](#) (U of T)– *For everyone* - A free, online training program to provide a broad foundation in intellectual property.
- [Ideation Clinic](#) – *For everyone* – Offers a range of programming to help you at various stages of your innovation career, including Ideation Programs, Hacks and Huddles.
- [Health Innovation Hub \(H2i\)](#) – *For everyone* – Provides a wide array of programming and resources for entrepreneurs and their ventures, including mentoring, funding opportunities, workshops and speaker series.
- [University of Toronto Entrepreneurship](#) – *For U of T graduate students* - Provides services and events to support entrepreneurship in the U of T community.

Consulting Resources

- [Graduate Management Consulting Association \(GMCA\)](#) – *For everyone* - Supports students and PDRs interested in management consulting. They host information sessions, case challenges, career panels, networking events, and more.
- [GMCA Business Fundamentals](#) – *For everyone* – A 10-week online course designed to provide graduate students and PDRs with an introduction to business concepts. Individuals will apply their learned concepts to a business problem in a case competition judged by consultants and industry professionals.
- [University Consulting Group](#) – *For everyone* – A non-profit organization that provides students with an opportunity to gain practical industry consulting experience and mentorship, while working on projects for clients in the non-profit and social sector.

Government and Policy Resources

- [Canadian Science Policy Centre \(CSPC\)](#) – *For everyone* - Hub for connectivity, convening, capacity building, and catalyzing research in support of effective science and innovation policy. They host events and workshops, as well as a yearly conference.
- [Evidence for Democracy](#) – *For everyone* - Non-partisan Canadian non-profit organization which advocates for evidence-based policymaking in the government.
- [An Essential Guide to Science Advocacy](#) – *For everyone* - A toolkit developed by Evidence for Democracy that offers scientists resources for engaging in science advocacy.

Programming and Bioinformatics Resources

- [The Carpentries](#) - **For everyone** – Provides workshops that build the skills and perspectives to work more effectively and reproducibly with data and software. Their Data Carpentries workshops include a genomics curriculum, and their Software Carpentries workshops include programming with Python and programming with R.
- [U of T Coders](#) – **For everyone** – A group devoted to helping academics learn computer programming skills for use in their research. They offer skill and resource sharing, as well as co-working.

Science Communication Resources

- [Graduate Centre for Academic Communication \(GCAC\) at U of T](#) – **For U of T graduate students** – Online live and on-demand workshops to improve your communication skills, including workshops on improving your oral presentation skills, improving academic reading, and writing in the sciences, writing grant proposals, designing graphics for publication, and more.
- [ComSciConCAN](#) - **For graduate students** – A yearly Canadian workshop that provides science communication training for graduate students involved in Science Communication activities.

Skill Development Resources

- [Mitacs Training](#) – **For everyone** - Provides professional skills development courses including networking skills, project and time management, reconciliation and equity, diversity and inclusion, communication skills, career planning, and more.
- [University of Toronto Libraries](#) – **For U of T graduate students** - Provides self-paced modules on copyright, data visualization, infographics, library research skills, introduction to R, and working with Messy Data in Open Refine.
- [BioTalent Canada](#) - **For everyone** – Provides technical skills training designed for the Canadian bio-economy, including programs on the fundamentals of scientific report writing, good laboratory practice (GLP), good manufacturing practice (GMP), quality assurance/quality control (QA/QC), and good clinical practice (GCP).
- [Nature Career Columns](#) - **For everyone** – Career column that covers a vast amount of professional development topics, including tools for research efficiency, writing papers, peer networks, prioritizing projects, gaps in training, online protocols, research sustainability, the use of ChatGPT, equity, diversity and inclusion, and more.

Part 8. Getting Connected and/or Involved at UHN

UHN Postdoc Association (UHNPA)

The **UHN Postdoc Association (UHNPA)** is a volunteer group of PDRs whose mission is to create a more interactive and inclusive postdoc community while helping its members succeed during their time at UHN. They create and promote initiatives related to health and wellness, mentorship, and professional development.

- View the UHNPA website [here](#).
- Explore upcoming UHNPA events [here](#).
- Connect with UHNPA on [Twitter/X](#), [LinkedIn](#), and [Instagram](#). Email uhnpostdocs@gmail.com.
- Meet the current UHNPA Leadership Committee [here](#). Recruitment for the Leadership Committee occurs in October/November every year, with terms beginning in January of the following year. New members are also welcome to join the committee all year long. Email uhnpostdocs@gmail.com to learn more and join the committee.

UHN STEM Pathways

UHN students and PDRs can get involved in outreach with [UHN STEM Pathways](#). Volunteers can participate in various outreach events, including scientist panels, classroom visits, mentorship events, hands-on workshops, lab tours, and more. Sign up to be a volunteer [here](#). Email stempathways@uhn.ca for more information.

Trainee and Postdoctoral Researcher Committees

Some of the UHN Research Institutes have committees that students and PDRs can participate in:

- The [KITE Trainee Executive Committee](#) includes positions for event planning, communications, and operations to support their many trainee initiatives. Elections occur annually. Follow them on Twitter/X [here](#).
- The Krembil Research Institute has a Trainee Advisory Committee (TAC) that advises on institute events and initiatives. Email julie.wan@uhn.ca for more information.

Interested in starting a similar committee at your UHN Research Institute? Let the ORT know, and we can provide guidance and support!

Seeds of Science Podcast

The [Seeds of Science podcast](#) was launched to connect UHN trainees and PDRs and provide a platform to learn about their diverse experiences, backgrounds, research, and stories to share. As they grow and flourish in their respective scientific fields, they are the seeds of science!

Learn about the podcast and listen to Seasons 1 and 2 [here](#).

Greening at UHN

The [Sustainability at UHN](#) SharePoint page (UHN connection required) is a great resource for individuals committed to Patient & Planet-Centered Care. Interested individuals can join [UHN's Green Team](#), a group of over 700 UHN volunteers that help improve the environmental impact at UHN. To join, email green@uhn.ca.

Also, consider subscribing to [Talkin' Trash with UHN](#), a blog about greening the hospital environment.

Join the UHN Bicycle User Group by emailing UHNcycling@uhn.ca.

UHN 2SLGBTQIA+ Committee

UHN's 2SLGBTQIA+ committee promotes and fosters respect for the voices, interests, and issues of 2SLGBTQIA+ communities that provide or use UHN services by networking and advocating for inclusion at UHN and in the community. They support UHN's ongoing efforts to create service, work, and learning environments that are accessible, inclusive, respectful, and welcoming by challenging discrimination against gender identity, gender expression, and sexual orientation.

Learn more on their SharePoint webpage [here \(UHN connection required\)](#). Sign up for their mailing list [here](#).

Black Legacy Committee

[UHN's Black Legacy Committee](#) is an employee resource group that increases the awareness and understanding of equity issues related to Black and racialized communities at UHN. To get involved, email diversity@uhn.ca.

UHNWomen

UHNWomen is a program to help empower and further uplift TeamUHN and A Healthier World. Women face unique gender-based challenges that span across a wide spectrum. An uplifted culture inspiring and generating interpersonal and organizational support, openness, resources, partnership, multi-directional learning and mentorship, and more, will improve outcomes for all, including staff and patients across all career levels.

Learn about the UHNWomen Strategic Plan [here](#). Learn about the UHN Working Moms Mentorship pilot program and resources [here](#) (UHN connection required).

UHN Wellness Champions

Wellness Champions are members of TeamUHN who are passionate about health and wellness and wish to lead initiatives that support the wellbeing of their units or departments. Wellness Champions play a vital role in the promotion of wellness programs, events, and the development of a healthy work culture. They also act as a liaison between the UHN Wellness department and their home unit or department. Learn more and apply to be a wellness champion [here \(UHN connection required\)](#).
