

Wondering how you can gain access to scientific journals from home? Here are two options for your reference:

Option 1 (UofT Access)

- Launch the Website <https://onesearch.library.utoronto.ca/>
- Type in article name and click boxes: by title and online only
- Once the paper comes up in the search, click on it, log in with your UTORid via UofT web login.
- If UofT subscribes to the journal, then the full paper will come up.

Option 2 (For those **without UofT accounts, here is how you can access through UHN):**

- Launch the UHN libraries website: www.UHNLibraries.ca
- Type in article name in the UHN OneSearch box and hit "Search"
- Once the paper comes up in the search, click on it, log in with your UHN email or T-ID and password.
- If UHN Libraries subscribes to the journal, then the full paper will come up.

If you have any questions, you may email UHN Library & Information Services at: uhnlibraries@uhn.ca
